

Club Together Update

April 2013

Some within the club may be wondering if the impact of this programme was having any effect. Although work has been progressing, results to date have not been so recognisable. This report and other news stories on our website in fact show that things are now slotting into place.

Recruitment

Our latest recruitment figures since joining the programme in June 2012 are: Athletes 81, Coaches 17, Officials 9, and Volunteers 11. The April report we submit must show the retention figures for the numbers above.

These are: Athletes 76.8%, Coaches 82.4%, Officials 77.7% and Volunteers 100%.

These retention figures are above the targets set within the programme.

Competition Database/Standards

This is due to launch very soon and details about it can be found in other sections of the club website. We could do with additional help on the admin team for this. If you are interested please talk with myself or send an email to fvhcto@hotmail.com

General

Falkirk High School are interested in FVH assisting them with their running club and we are considering how best to approach this. Falkirk Community Trust are piloting RJT type classes in various local areas. Both these projects will hopefully provide an avenue for kids to progress to the club.

Our new Press Officer, Allison Spark, has now been in post almost three months and I am sure you will have noticed a big increase in the coverage given to the club in the local press.

All the above reflects on the hard work by many people. Both the club and I are extremely grateful for all the input and support. We are always looking for fresh ideas and keen to engage more volunteers. If you want to suggest anything or indeed get involved just have a chat with myself at training.

Harry Baird
